

# Montana Medicaid & Breast Pumps

## EVERYTHING YOU NEED TO KNOW

To support Montana breastfeeding families, MT Medicaid provides both hospital grade & personal double electric breast pumps to members. See criteria and ordering steps below.

### Step 1: Breast Pump Type

Montana Medicaid provides 2 breast pump options:

#### 1) Double Electric Breast Pumps:

- Who are 28 weeks gestation or are currently breastfeeding;
- 1 breast pump per pregnancy (no more than 1 pump per year);
- Pump in Style (R) with Max Flow(TM) (current contracted pump).

#### 2) Hospital Grade Double Electric Breast Pump Rental:

- Preterm infant 38 weeks gestation or less;
- Infant has feeding difficulties due to neurological or physical condition;
- Illness of mother and/or infant that results in their separation;
- Mother is on medication that compromises her milk supply;
- Member has multiple infants.

### Step 2: How to order your pump

#### Ordering a Personal Electric Pump

- 1) Go to [Healthy Babies, Happy Moms](#) & complete quick order forms.
- 2) Have your provider submit **order** by FAX to Healthy Babies, Happy Moms at (844)276-5457

#### Requesting a Hospital Grade Breast Pump *(special criteria)*

- 1) MT Medicaid allows 2 months rental without prior authorization if meet the criteria.
- 2) Prior authorization requests can be sent by faxing the request to 406-444-1861, attention, Aleasha Horn, DME Program Officer.

### Step 3: Locate Breastfeeding Support
